

# Zeid Ombotimbe

+223 91568547 | [zobtbe@gmail.com](mailto:zobtbe@gmail.com) | [LinkedIn](#) | [Github](#)

## SKILLS

**PROGRAMMING LANGUAGES:** Python, Julia, Java, C++, SQL (TSQL, PostgreSQL)

**DATA ANALYSIS & VISUALIZATION TOOLS:** Pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly, Streamlit, Spreadsheets, Jupyter, Tableau, D3.js, Microsoft Power BI

**MACHINE LEARNING & STATISTICS:** Regression Analysis, A/B Testing, Experimental Design, Decision Trees, Gradient Boosting (XGBoost), Scikit-Learn, Large Language Models (LLM)

**CLOUD & DATA ENGINEERING:** Git, Azure, Snowflake, BigQuery, Airflow

**SOFT SKILLS:** Collaboration, Results-Oriented, Proactive Execution

## EXPERIENCE

[SKOLKOVO INSTITUTE OF SCIENCE AND TECHNOLOGY \(SKOLTECH\)](#) —

**Participant, Innovation Workshop (through the Gorchakov Foundation's InterRussia STEM Specialists Fellowship)** | Sept 2025, Moscow, Russia

- Collaborated with an interdisciplinary team to design and prototype a quadcopter-based drone equipped with computer vision to deter bird strikes at airports.
- Conducted market research, field testing, and technical presentations to faculty and industry experts, receiving recognition for innovation and technical feasibility.

[PERASUS](#) | **Data Consulting, Insurance & Banking Solutions, Retail**

Data Scientist - Data Intelligence & Analytics, Jul 2024 – Aug 2025, Bamako, Mali  
[Data Analytics, Azure Data Pipelines, Interactive Dashboards, ETL Automation](#)

- Orange Mali: Built real-time analytics on millions of daily mobile money transactions using Azure & Snowflake, providing operational insights and ensuring system reliability.
- Sunu Assurance: Modernized claims processing by migrating from legacy SQL to Snowflake, enabling faster fraud detection and automated Power BI reporting.
- Coccinelle: Developed and maintained an executive Streamlit platform tracking sales/inventory across 14 locations, replacing manual reports with dynamic visualizations for data-driven decisions.
- Automated financial reporting via ETL pipelines (Azure Data Factory, PySpark), reducing manual workload while improving data accuracy for Orange Mali
- Risk Modeling: Engineered a customizable risk-scoring tool (Python, XGBoost) that identified high-fraud-probability claims, improving detection efficiency by 25% for Acrisure South Africa.

[DATA CREATIVE](#) | **SQL, and Power BI Training**

**Instructor** | Jan 2023 – May 2023, Remote

[Technical Training, Data Analytics, and Professional Development](#)

- Delivered interactive, live training sessions in SQL, and Power BI to over 60 learners, including beginners, intermediates, and advanced corporate and early-career professionals, achieving an average instructor rating of 4.7 stars across three courses.
- Designed and facilitated hands-on, real-world exercises and modern course materials tailored to diverse audiences, enhancing participants' practical skills in data analysis, querying, and visualization.
- Collaborated with the Data Creative team to refine curriculum and ensure alignment with industry standards, contributing to the success of a hands-on, expert-led training model.

[A2SV \(Africa to Silicon Valley\)](#) | **Algorithmic Problem-Solving**

**Program Participant** | Nov 2022 – Nov 2023, Remote

[Non profit Tech Education Initiative](#)

- Achieved a significant rise in my competitive programming ranking by mastering advanced algorithms through daily practice and weekly contests in a selective, intensive training program for top African engineering students.

## EDUCATION

**UNIVERSITY OF THE PEOPLE**

*Bachelor of Science (B.S.), Computer Science*

Expected Aug 2026 | Pasadena, CA

CGPA: 3.29/4.0

## CERTIFICATIONS & AWARDS

[InterRussia STEM Specialists Fellowship \(The Gorchakov Foundation\)](#)

Selected international fellow; 4-week Innovation Workshop at Skoltech focused on interdisciplinary prototyping and applied research | Sept 2025 | Moscow, Russia

[Applied Data Science Lab Certificate](#)

Advanced training in applied data science and machine learning through eight industry-focused projects | WorldQuant University | January 2025 | Online

[Google Advanced Data Analytics Certificate](#)

A comprehensive program covering machine learning, data cleaning, visualization, and statistical analysis to solve real-world problems | Google | December 2024 | Online via Coursera

[Data Skills for All \(DS4A\) certificate](#)

Completion of an 8-week program preparing fellows for data-driven roles, Awarded [Outstanding Community Citizenship](#) for significant contributions to the learning, growth, and community culture of the DS4A Program | Correlation One | December 2023 | Online

## COURSEWORK

Data Structures & Algorithms  
Applied Statistics  
Linear Algebra  
Differential Equations  
Data Mining  
Discrete Mathematics  
English Composition  
Calculus 1 & 2

**LANGUAGES**

English, French, a bit of Russian

## INTERESTS

Traveling • Fitness • Nutrition • Horses • Open-source • Self-improvement
